

The *ICFDA 2024 Conference on Fractional Differentiation and its Applications* is a specialized conference on fractional-order calculus and its applications. It is a generalization of the integer-order ones. The fractional-order differentiation of arbitrary orders takes into account the memory effect of most systems. The order of the derivatives may also be variable, distributed or complex. Recently, fractional-order calculus became a more accurate tool to describe systems in various fields in mathematics, biology, chemistry, medicine, mechanics, electricity, control theory, economics, and signal and image processing. The *ICFDA 2024 Conference will be held in Bordeaux, France*. We will celebrate the 20th anniversary of the creation of the first FDA Conference, which was also held in Bordeaux 2004. The conference will be in face-to-face meetings.

Paper Categories

- Regular paper (R): up to 6 pages in the proceedings
- Survey paper(S): up to 12 pages in the proceedings
- Discussion paper (D): from 2 to 4 pages, for discussing specific topics, particularly from non-academic participants (not to be included in IFAC-PapersOnLine)

Submission Categories

- Regular contributions (R/S/D)
- Open Invited Tracks (R/S/D): focus on specific research topics, accepted after review process
- Tutorials

Important Dates

Nov. 15, 2023	Invited Session proposals deadline
Nov. 31, 2023	Regular / Invited papers submission deadline
Nov. 30, 2023	Tutorial proposal deadline
Nov. 30, 2023	Discussion papers deadline
Jan. 30, 2023	Notification of acceptance
Apr. 22, 2023	Final paper submission deadline

International Program Committee

IPC Chair	Igor Podlubny
IPC Co-Chair	Rachid Malti
Editor	Stéphane Victor

National Organization Committee

NOC Chair	Pierre Melchior
NOC Vice-chair from Industry	Eric Lalliard

Technical Areas in FDA

Artificial Intelligence	Mechatronics
Automatic Control & Stability	Physics
Biology & Biomedicine	Robotics
Earth Science	Signal Processing
Electrical Engineering & Electromagnetism	Singularities Analysis and Integral Representations
Electrochemistry	Special Functions
Epidemics	System Identification & Modeling
Finance and Economics	System Analysis & Integral Representations
History of Fractional-Order Calculus	Thermal Engineering
Image Processing	Variational Principles
Mathematical methods	Others
Mechanics & Viscoelasticity	

IFAC Main Sponsoring Technical Committee

TC 2.2 Linear Control Systems

IFAC Co-Sponsoring Technical Committees

TC 1.1 Modeling, Identification and Signal Processing
TC 2.1 Control Design
TC 2.5 Robust Control
TC 4.2 Mechatronic Systems

Copyright Conditions

All publication material submitted for presentation at an IFAC-sponsored meeting (Congress, Symposium, Conference, Workshop) must be original and hence cannot be already published, nor can it be under review elsewhere. The authors take responsibility for the material that has been submitted. IFAC-sponsored conferences will abide by the highest standard of ethical behavior in the review process as explained on the Elsevier webpage (<https://www.elsevier.com/authors/journal-authors/policies-and-ethics>), and the authors will abide by the IFAC publication ethics guidelines (<https://www.ifac-control.org/events/organizers-guide/PublicationEthicsGuidelines.pdf/view>).

Accepted papers that have been presented at an IFAC meeting will be published in the proceedings of the event using the open-access IFACPapersOnLine series hosted on ScienceDirect (<https://sciencedirect.com/>). To this end, the author(s) must grant exclusive publishing rights to IFAC under a Creative Commons license when they submit the final version of the paper. The copyright belongs to the authors, who have the right to share the paper in the same terms allowed by the end user license, and retain all patent, trademark and other intellectual property rights (including research data).
